EFFICIENT BY DESIGN

ROKK Processing Ltd, Wolvey Lodge Business Centre, Cloudsley Bush Lane, Wolvey, Leicestershire, LE10 3HB, England

CONTINUOUS RFE PLC ICE CREAM FREEZER

AVAILABLE IN 2 MODELS: 800 & 1500 litres per hour.

The fully automatic ROKK RFE Continuous Freezer is a highly versatile system, combining premium components with advanced PLC and VFD technology for precise control of freezing and aeration. Designed for continuous production, the RFE delivers a super-cold, consistent and high-quality finished product.

20% to 150% Overrun (recipe dependent)

Flexible performance with easy adaption to a wide range of recipes

12” Siemens S7 Comfort Panel Touchscreen HMI

Integrated recipe management and product traceability

Intuitive Operator Control

Precise adjustment of temperature, flow rate, viscosity, barrel pressure and overrun

Self-contained Bitzer freon refrigeration compressor

An all-in-one cooling system engineered for lower power consumption, simple maintenance, and reliable daily operation.

Precision Flow Measurement

Endress+Hauser and **Bronkhorst** technology provides accurate control of mix and air flow.

Variable-speed VFD control

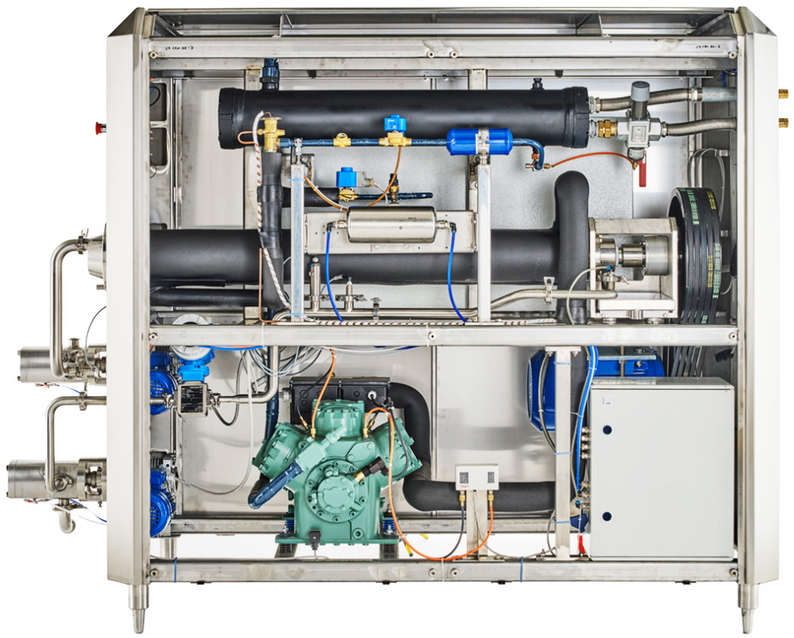

Advanced control of refrigeration, dasher and pumps for precise, repeatable production.

Available in a range of output capacities:

RFE 800 PLC Min: 250 ltr/hr Max: 800 ltr/hr

RFE 1500 PLC Min: 350 ltr/hr Max: 1500 ltr/hr

	RFE 800 PLC	RFE 1500 PLC
Capacity	250–800 L/hr @ 100% overrun	350–1500 L/hr @100% overrun
Dimensions	1600mm x 870mm x 1720mm l x w x h	1600mm x 870mm x 1720mm l x w x h
Power	28kw	36kw
Twin Rotary Pump	✓	✓
Inverter Controlled Dasher	✓	✓
Inverter Controlled Bitzer Compressor	✓	✓
12” PLC Screen	✓	✓
